INFORMATION ABOUT ADMISSION TEST

2017

Master in Multimedia Development

M. Tech IT (Courseware Engineering)

The admission test questions would be of multiple-choice type, modeled upon the GRE-type exams. The answer should be selected from a given set of choices by indicating options A, B, C, D etc. The exam would be on a computer terminal and using a specific time duration.

Marks would be awarded as per the following scheme :

+1 for correct answer, 0 for no answer, – 0.25 for incorrect answer.

The test will include four sections as below :

- (1) Aptitude / Logical Reasoning : This section would consist of analyzing the logic behind a series of visual patterns or a set of numbers / letters and finding a missing item or the next item of the series.
- (2) Numerical / Quantative Analysis : This section would consist of simple problems on Arithmetic, Geometry, Algebra, Mensuration etc.
- (3) Verbal Reasoning / Test of English : This section would consist of questions designed to test comprehension of English language like synonym, antonym, grammatical syntax, sentence construction, spelling corrections etc.
- (4) Technical Knowledge : This section would consist of questions to test the basic level of technical knowledge related to computers, operating systems (DOS/Windows/Unix), networks, hardware/software, security etc. Additionally for M. Tech. IT (CWE), this section would also include basic questions on C Programming.
